

WHEELED SHROUD

Wheeled shroud features:

- Constructed from 304 stainless steel for durability and corrosion resistance.
- Optional transducer mounting bracket for clean, secure sensor installation.
- Integrated lifting eye for easy installation and removal.
- Custom-built lengths to ensure proper motor cooling for each pump model.
- Custom-machined wheels are set to match the specific well casing angle/diameter.
- Flush thread caps are built to match each pump's discharge size.
- Teflon grommets at wire passages to protect motor leads from abrasion.
